## Wrecker / Carrier Maintenance and Repairs

▶ Minimizing  
equipment down  
time is our goal.

Ph.# 317-273-WRKR Fx.# 317-273-9758

## ► Services Available:

From simple lube, oil, and filter to hydraulic system diagnosis, electrical troubleshooting to re-bushing wheel lifts, we can do it all.

CHASSIS AND  
BED REPAIRS  
PERFORMED

With over 15 years in fleet preventative maintenance and repairs, and 3 years in towing dealership installation, repair, and warranty issue experience, we can take care of your common and unique needs. Perhaps you've had a product line you've been dedicated to, but had a bad install. Purchase a bed of your choice and let us install it on your chassis to YOUR specifications. Annual inspections, custom lighting, and repair recommendations are all part of the services available to you at MIDWEST WRECKER REPAIR.

## Parts & Accessories:

Parts sourcing for all makes and models of wrecker or carrier bodies.

Common lighting and securement parts in stock. Dealing directly with manufacturers around the country to get the products you need to

keep your truck running and your down time minimized. Initial inventory will be low to keep

Securement problems? Common chains in stock.

start-up costs down. We can source the parts you need; if not in stock, at no additional cost to you. Whether you own 1 truck or 30, all customers are important and deserve that call back, even if the answer is, "Sorry, we can't find what you need". Not every situation can be solved, but knowing one way or the other helps you decide on your next move.

## Experience

We've got a new, energetic attitude. A genuine attempt at providing

Custom solutions to your individual repair needs.

the necessary tool for your business... Equipment maintenance.

Most towers are so busy focusing on their own internal problems: i.e. driver turn-over, scheduling, dispatching, as well as, the day to day payroll, and billing; why trouble yourself by adding maintenance and repair to your overwhelming list of "To Do's"? Let us handle it.
